February 25, 2010

To Whom It May Concern:

Architectural Metals has successfully completed the louvers, flood panel barriers and the fin blades that surround the New City Hall Garage located at 1755 Meridian Ave, for the City of Miami Beach working as a Subcontractor for the Tower Group, OHL.

They have performed very well specifically in the fin blade system and trellis design in addition, their cleanliness of job site, timeliness of work, and their innovative approaches which enhance their productivity have allowed them to execute a great job.

We recommend them for any type of Metal work, complicated designs, metal enclosures, louvers, etc. They are a professional and competent organization with excellent responsiveness and a sense of urgency.

Sincerely,

Hiram G. Siaba
Sr. Capital Projects Coordinator
