Why Choose Pawling?

With over sixty years of experience, Pawling Corporation is a leading manufacturer of high-quality architectural products that will meet your material specifications as well as your design needs. We offer responsive, results-oriented design capabilities to satisfy any custom design requirement.

- Complete line of impact protection, entrance mats, athletic tile and parking products to protect your entire facility in any application
- Two manufacturing facilities totaling 360,000 square feet
- Broad line of exceptional products to protect facilities front to back, inside and outside
- Custom-designed fabrications and colors based on your needs

1 Rol-Dek® Series

Protecting your building from moisture and debris starts with Pawling's complete line of custom Pro-Tek® entrance mats—like our Rol-Dek® Series. You can achieve a sleek, architectural look with a quality product that rolls up quickly for easy maintenance and cleaning. In three popular styles, the Rol-Dek® Series provides protection in moderate to heavy traffic areas and may be used in both recessed and surface applications.

All Rol-Dek® entrance mats feature:

- Easy cleaning, rolls back 180°
- Six different tread insert options create multiple combinations of colors and functions
- Custom fabrication, including angles, arcs/radii, and cutouts
- Continuous resilient vinyl cushion reduces clatter
- Optional square nosing for on-site trimming
- Optional beveled nosing for surface applications
- Rolling load test to 350 lbs./wheel
- EM-650/EM-800 fabricated from at least 70% recycled aluminum

2 Drain-Well® Series

Make a statement at your entrance with our heavy-duty Drain-Well® entrance mats. With three options to choose from, you're sure to find the one that meets your needs. Trapping grime is easier with our Drain-Well® Series—moisture and dirt scrapes off shoes and gets trapped beneath the surface. Available in four aluminum finishes, our Drain-Well® gratings will give you the aesthetic look you want with the entrance protection your building needs.

All Drain-Well® entrance mats feature:

- Six different tread insert options for multiple combinations of colors and functions
- Custom fabrications for specific needs such as arcs, patterns, etc.
- Continuous resilient vinyl cushion reduces clatter
- Standard level bed frame systems (RG-500/600 feature optional deep pit frame systems)
- Fabricated from at least 70% recycled aluminum

3 Metal Gratings

Our Pro•Tek® entrance gratings combine the beauty of metal with the exceptional strength of grid systems that are designed to stand up to the toughest traffic. Use in conjunction with our Maxi-Tuft Long Wear Carpet Matting to brush and remove moisture while providing a dramatic look for your entryway. With their smooth rollover capability, metal gratings such as our RG-200 are also excellent for applications involving wheelchairs or gurneys. And our metal gratings are well suited for both interior and exterior applications.

All styles feature:

- Clean architectural lines for an elegant, high-tech appearance
- Safe, heel-proof design
- All-weather durability and easy cleaning

4 The Harmony Series

Pawling’s Harmony Series is a fully-integrated system developed to combat maintenance problems, extend the life and appearance of interior floors and prevent slips in entrance areas. With a choice of plain tile, carpet or a combination of both, the Harmony Series provides an option for every application. The uniquely constructed modular tiles of the EM-100 provide exceptional dirt scraping and moisture retention with the ease of interlocking installation. EM-110 combines that same ease of installation, plus extra cleaning capability with the brushing action of tufted cut-pile nylon carpet strips. And the modular design of the EM-120 allows for solid carpet sections intermixed with the tile, yet is attractive and functional enough to stand on its own. With three designer styles and thirteen carpet choices, you’re sure to find the right look for your décor. These long-lasting, attractive and versatile pieces will provide slip resistance and effective dirt removal for years to come.

5 Heavy-Duty Rubber Entrance Mats

Pawling’s Hi-Rib® rubber entrance mats feature deep groove corrugations to trap debris and minimize soil tracked into your building. With a flexible “Wiper Blade” design, Hi-Rib mats remove debris efficiently from shoes. Our premium rubber compound remains flexible in sub-freezing conditions, and maintains outstanding slip resistance in wet and dry conditions. If it’s tough “brush and dry” entrance protection you need, consider our Dura-Tile—100% recycled rubberized tire strips buffed to a chenille finish and bonded to a durable fiberglass backing. The parquet-style installation provides a versatile, non-directional traffic surface.

Our heavy-duty rubber entrance mats feature:

- Excellent coverage for both interior and exterior high-traffic areas
- Installation options ranging from glue-down to loose laid to interlocking tiles
- Slip resistance that exceeds ADA recommendations

6 Vinyl Entrance Mats

Pawling's Pro•Tek® vinyl entrance mats combine performance and style to suit any entry requirements. Our mats aggressively scrape and trap soil and debris. The LM-100 and LM-400 both feature safe, heel-proof drainage holes for a comfortable and slip-resistant entry surface. In addition our modular vinyl tiles are made from recycled PVC material, adding to your LEED certification points. You can also make an impression with your company logo on a Parco-Link vinyl entrance mat. These mats feature flexible wiper blades to scrape and squeegee shoes clean and exceed the ADA recommended standards for slip resistance in wet and dry areas (0.67 Dry and 0.89 Wet per ASTM D-2047).

Pawling's Vinyl Entrance Mats feature:

- Variety of colors to match any decor
- Superior slip resistance
- UV stabilizers to resist fading

Loose Lay Interlocking

Weight/Sq. Ft.	LM-100 2.3 lbs. LM-400 1.8 lbs.

Uses Recycled Materials

7 Heavy-Duty Carpets

Bring an upscale appearance to high-abuse or high-traffic areas with Pawling's Pro•Tek® Heavy-Duty Carpets. With a durable, rugged blend of heather fiber that provides excellent resistance to fading and UV light degradation, our heavy-duty carpets are perfect for interior and exterior applications. High traffic locations such as fitness clubs, country clubs, hotels and other lobby entrances will benefit from the non-woven needle-punched construction that makes Pawling's carpet more durable than conventional commercial carpet. Our Berber and Protector carpet lines offer hot-melt beveled edging or attached vinyl beveled nosing for surface applications.

All of Pawling's Berber, Protector and Jaguar carpets feature:

- A wide variety of colors to complement any décor
- Custom sizing
- Coarse fibers that effectively trap soil and debris
- Easy to clean durability
- Fiberbond construction that allows for factory or on-site custom cutting without unraveling
- Non-woven needle-punch construction
- DOC FF-1-70 & FF-2-70 flammability ratings
- Nonskid composite rubber backing

8 Vinyl Backed Mats

Pawling's Pro-Tek® line of Maxi-Tuft Long Wear Carpet and Natural Cocoa Mats provides densely-tufted fiber construction for exceptional brushing and drying performance. The unique tetra-lobal shaped fibers of Maxi-Tuft (pile weight 26.5 oz./square yard) collect three times the dirt of ordinary standard nylon type carpets. Used in combination with our Rol-Dek®, Drain-Well® and Metal Grating Series entrance mats, Maxi-Tuft will provide the best combination of style and performance to keep your entryways beautiful for years to come. If sand, dirt and moisture are the problems, turn to our EM-300 series of Natural Cocoa Mats, with fibers that aggressively remove soil from shoes like a brush.

Pro-Tek® Vinyl Backed Mats include features such as:

- Custom sizing and a variety of thicknesses
- Long-wearing coarse fibers that effectively minimize and prevent the spread of dirt beyond your entryway
- Standard colors that won't show wear and tear
- Choice of loose lay or glue down installation and optional bevel nosing for surface applications
