

RETROFIT FOR HANDRAILS INFILL PANEL SYSTEM

APPLICATION

- Retrofit existing handrail with infill panels that meet four inch maximum sphere rule dictated by I.B.C.
- These panels, either perforated metal or wire mesh, can have different openings, and will also remove the effect of “ladder effect” railing.

SYSTEM COMPONENTS

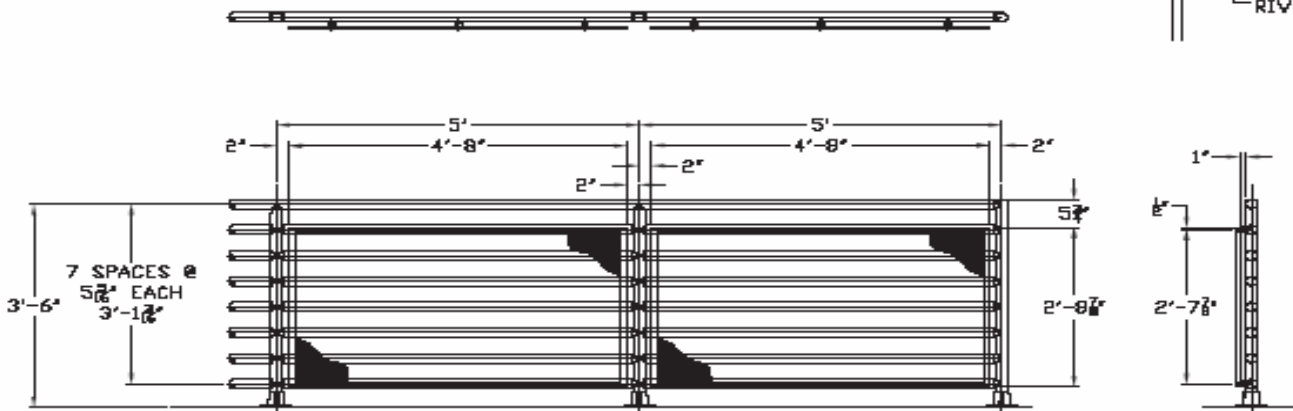

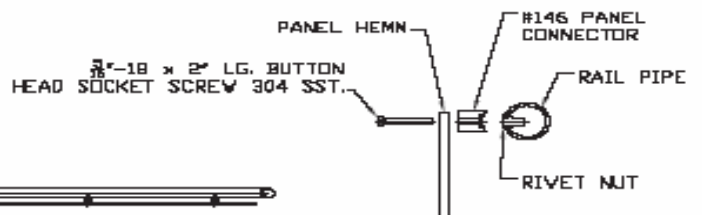

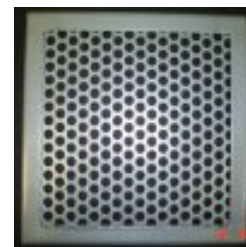

1. Infill Panels

- E-coated (*for exterior applications*)
- Powder coated to customer specifications

2. Attachment System

- #146 Panel Connector
- Rivet Nut—requires special tool, RST-3 to insert.

3. 5/16” - 18 x 2” Sockethead Screw
